PRODUCT CATALOGUE 2024

FLOW-COLOR

Enjoy fancy colours as often as Vita shades. Micro-hybrid light, cure dental composite is available in 9 colours.

DENTAL ETCHING GEL

The easiest etching removal system to use. This optimised gel structure consists of 36% o-phosphoric acid.

Available in syringes:
2,6 g, 6,5 g, 13 g or 60 g

A1, A2, A3, A3.5, OA2, OA3, B2, C2, D2, D3, transparent

CREATE

"Hard as nails" micro-hybrid restorative and light cure composite. In combination with COMCORD ensuring optimum strength.
6 g syringe

COMCORD

The only dental fibre in the world impregnated with composite equally as good as the best restorative materials on the market.
Length - 60 mm
width $2,5 \pm 0,2$ mm
thickness $0,7 \pm 0,1$ mm

COMCORD SCISSORS

Designed to cut the strongest fibres.
1 pcs

NEXT

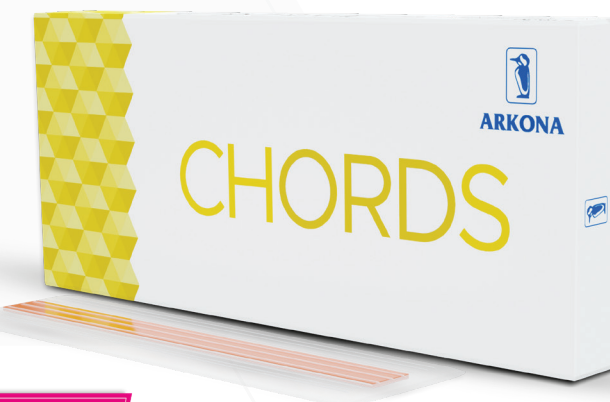

"As soft as velvet" modelling composite for dental fillings, micro-hybrid and light cure.

4 g syringe with extra colours like:

blue  pink 

A1, A2, A3, A3.5, OA2, OA3, B1, B2, C2, D2, D3, pink, blue, incisal

CHORDS

Extra strong, very slim and surprisingly flexible polyaramide fibre.

Length: 10 cm
widths: 2 mm, 3 mm or 4 mm

A1, A2, A3, A3.5, OA2

FLOW-ART

User friendly flowable restorative composite.
In 2 g syringes

PERIO-FLUSH

A solution for the irrigation of periodontal pockets in a syringe dispenser.
Set of 10 x 3 ml syringe

SEALPRIM

Nano-hybrid Pit and Fissure Sealant, transparent and cures at the blink of an eye, no adhesive required.

Syringe 1 g

A  B  C  GINGIVAL 

COLOURANT

A flowable COLOURANT in 3 different brown shades and gingival pink.
Syringe 1 g

GLAZE

Composite GLAZE creates a glossy and shiny external layer in dental restorations. Brings an extra hermetic seal towards fillings and strengthens self-cue and glass ionomer restorations.
Bottle 3 ml

MASTERBOND

A 5th generation adhesive system.
Bottle 4 ml

PREOP

Mouth wash tablets for water solutions. The perfect protection against microbes. Reduces the risk of contamination and cross infections by eliminating the number of bacteria.
90 tablets
